The right product presentation makes profit!

FREUND VICTORIA offers practical and promotional sales displays / POS solutions for your selling area.

Specially designed merchandisers, space-saving layout and clear product information ensure an attractiv presentation and guarantee successful sales!

The professionals of FREUND VICTORIA ensure an optimal image!

If the equipment is right - weather capers cause no problem in winter!

FREUND VICTORIA stands for a comprehensive range of top-class snow clearing equipment for many applications. The product range extends from the product entry level of promotion models to products for professional use in the alpine area.

In addition to the tried-and-tested classic plastic sheet-, aluminum sheet- and plywood blade snow shovels with wooden handle, the modern, innovative product series such as “ALULINE”, snow shovels with extra-lightweight aluminum handle and the colorful “COLORLINE” are also in the focus of demanding customers today.

Snow scoops for large areas, an excellent range of brooms, shovels, ice and snow scrapers, salt and grit spreaders and a very interesting offer of gloves to protect the hard working hands complete the range.

Children enjoy snow shovels and brooms in a child-friendly design and fireplace friends will find the transport and storage accessories for their firewood at FREUND VICTORIA.

Quality that is confirmed!

COLOURLINE

The winter will be colourful.

Safety through visibility!

The new FREUND plastic snow shovel „REFLECTION” is characterized by its glowing color and reflective product component and is therefore the ideal partner in the dark season. The handle and plastic blade are in neon yellow color and the high-oval shaft is equipped with a light-reflecting coating. Due to its eye-catching colors and light reflection, it offers perfect visibility when used in the dark near road traffic!

ALULINE - Extra light! Variation aluminum handle and plastic pan

Snow clearing without effort! The connection of extremely light aluminum handle and plastic pan allows extremely power-saving work. The handles are coated with a cold-resistant non-slip plastic. Depending on the model there is a choice between noise-deadening edge for extra-quiet use or an aluminum profile edge. Each model is equipped with the ergonomic plastic D-handle and two models do have a handle in special shape for an extremely back-friendly posture.

Test winner for the second time in a row

ALULINE - Extra light! Variation aluminum handle and aluminum pan

Classically light aluminum pan meets aluminum handle and thus forms the solid aluminum PROFI models. The handles are coated with a cold-resistant non-slip plastic. Depending on the model there is a choice between noise-deadening edge for extra-quiet use or a riveted shaped steel edge. Each model is equipped with the ergonomic plastic D-handle and two models do have a handle in special shape for an extremely back-friendly posture.

Effective and space-saving!

The new plastic snow shovel offers a perfect length and working width to clear snow efficiently.

Very space-saving when folded, it makes it much easier to store in the home, in the tool shed or in the workshop. It is also an ideal companion for travelling in the car and for winter camping. Folding mechanism and blade are made of sturdy plastic and are cold-resistant even at low temperatures.

Plastic snow shovel 97300
- plastic pan
- dimension 49x38 cm
- metal handle with folding mechanism
- resists temperatures down to minus 20°C
- total length not folded: 133.5 cm
- total length folded: 76 cm
- about 1900 g
- space-efficient measure for shipping, transport, storage
- assembly by simple plug-in system
